ABOUT

Web designer based in Kharkiv. Since 2021, I have worked on website structure, Figma layouts and responsive interfaces. Seeking a permanent Web / UI/UX Designer role in a team.

SELECTED PROJECTS

NOCTURNE

Concept / Live website

English school concept. Page structure, design, responsive development and animation.

Stack: TypeScript, React, Next.js, Tailwind CSS, GSAP

FORMA

Completed website

Residential architecture website. Design and development.

Stack: TypeScript, React, Vite, CSS

KONTUR

Concept / Live website

Concept tech store. Catalogue, product pages and shopping cart.

Stack: HTML, CSS, JavaScript — no framework

AURA

Completed website

Bilingual aesthetic clinic website. Design, responsive development and motion.

Stack: TypeScript, React, Next.js, Tailwind CSS, GSAP, Lenis

EXPERIENCE / PRACTICE

2021 — present / Web design

Design and development of landing pages, multi-page websites and online stores. Page structure, prototypes, UI components, responsive layouts and animation.

AI & DEVELOPMENT

I build in Framer, Webflow or code, with Codex as a development assistant. I account for technical constraints, timelines and budgets. I configure CMS platforms for editing content without a developer and integrate Telegram bots for enquiries.
